

Community Advocacy Brief: For Enhanced Retail Operations and Community Well-being

Dear Retailer,

I hope this letter finds you well. As a loyal local customer and an active member of our community, I recently faced a frustrating experience trying to report an abandoned shopping trolley. Many trolleys had no clear indication of how or where to report them. After researching online, I found the current methods cumbersome, time-consuming, and seemingly inefficient.

That's when I discovered QR Lost Notification website. It's an innovative solution that offers significant advantages for both your business and our community. It allows anyone with a smartphone to scan a QR code on the trolley, using their phone's camera app, to notify you of its exact GPS location effortlessly.

The Problem We All Face

Abandoned shopping trolleys are more than just an eyesore; they pose environmental hazards and safety risks. Traditional methods of reporting and collecting these trolleys are slow and often inefficient, requiring multiple steps and human intervention, and quite frankly becomes a barrier to report.

How QR Lost Notification Can Help

QR Lost Notification streamlines the process. Each of your trolleys would have a QR Tag. Anyone finding a lost or abandoned trolley can simply scan this tag with their smartphone camera—no need for any additional apps. This action immediately notifies your local store and the nearest trolley collection team the exact GPS location in Google maps, facilitating quick and efficient retrieval.

Benefits to Your Business:

- **Reduced Costs:** Faster recovery means fewer trolleys to replace.
- **Instant Notification:** Immediate knowledge of the trolley's exact GPS location.
- **Enhanced Reputation:** Demonstrates your commitment to the environment and local safety.
- **Efficiency:** Eliminates the need for manual reporting and collection, saving time and resources.
- **Profitability:** Save money on replacement costs, contributing to a healthier bottom line.

Benefits to the Community:

- **Ease of Use:** Simple reporting process using just a mobile phone.
- **Safer and Cleaner Neighbourhoods:** Quicker trolley retrieval prevents environmental issues and maintains community aesthetics.
- **Community Engagement:** Empowers residents to actively maintain their local environment.
- **Reduced Local Council Costs:** Lessens the burden on local councils for trolley disposal.

I believe QR Lost Notification could significantly benefit your business and our community. I encourage you to visit their website or contact them directly to learn more about this service.

Thank you for considering this innovative solution to enhance your business operations and contribute to a better community for us all.

Best regards,
